

Threats, Risk and Exposure are Seen in Real-Time

You have tons of important data collected across multiple log sources. When Security and Compliance is imperative, having the ability to intuitively visualize and interpret real-time network data allows you to make informed decisions quickly and with confidence.

The goal of Omega Systems' customized Live Time Dashboards is to do just that! Each dashboard is custom built to show you exactly what you need to keep your infrastructure secure. This quick and accurate threat intelligence tool empowers you to protect your business, minimize risk, and meet your compliance requirements with live, actionable data.

Fast, Fresh and Accurate Business Intelligence

Applications, servers, routers, devices... Omega Systems Live Time Dashboards consolidate the data from every component in your environment onto a single, full view dashboard.

Evolutionary Threat Hunting

Detect today's threats across your entire network. Omega Systems' threat intelligence filters are updated daily - keeping your business at pace with the constant evolution of cyberattacks.

Customized Insights

Canned reports limit your control over your IT environment. Omega Systems' Live Time Dashboards allow you to view and process information relevant to *your* needs.

Quick Audit Response

When all the data you need is in one convenient location, it's easy to verify policy compliance. Answer Auditor's questions in seconds with powerful, real-time network insights.

Maintain High Performance

Simultaneously explore multiple indicators of compromise to find and fix performance-related events quickly, before they impact your customers.
