

# Multiply Your Technology Security and Capabilities.

Omega Systems' Smart Host private cloud solution is a fully equipped, maintenance-free alternative to the traditional in-house IT environment.

You no longer need to make large investments in rapidly depreciating hardware. Omega Systems' private cloud solution reduces your financial liability by eliminating large capital purchases and unpredictable maintenance costs to a manageable, fixed cost solution.

● ● ● TRUST THE FUNCTIONALITY OF THE ONLY CLOUD SUPPORTED THROUGH OMEGA SYSTEMS' DATA CENTER

**Compliance with:** SSAE 18 AT 101 SOC 2 Type 2, CJIS  
 Can be compliant with · PCI DSS · FDIC · GLBA · FISMA · DoD · DISA · Hi-Trust · HIPAA

## "Private Cloud" AKA "Your Cloud"

Omega Systems has been delivering tailor-made IT solutions with dedicated, priority support for nearly 2 decades. We bring that same experience and expertise to the Smart Host private cloud platform. Smart Host is provisioned by the Omega Systems-owned data center, providing customization options, intuitive management and elasticity capabilities that are simply unavailable from other cloud environments. In short, your cloud solution will reflect your specific security, performance, scaling, application and architecture requirements under the watchful eye of certified professionals you know by name.

### Cloud Maintenance

- Certified Professionals
- Familiar Engineers
